PROFILE

Bongo Seakhoa, also publicly known as Bongo Kosa, is a data scientist and data engineer focused on cloud data workflows, applied machine learning, analytics delivery, and technical mentoring for distributed teams. Recent work spans data engineering, analytics consulting, learner support, and mentoring, alongside ongoing BSc study in Engineering Management at the University of Debrecen and completed University of Colorado Boulder coursework via Coursera.

CORE STRENGTHS

Cloud data engineering and analytics delivery

Applied machine learning and model deployment

Technical mentoring, tutoring, and learner support

Cross-border remote work spanning Africa, Australia, and Europe

EXPERIENCE

Data Engineering Scientist | MetaPOS

Cape Town, South Africa (Remote)

September 2023 - Present

- Works with Python, SQL, and data modeling to support data pipelines and analytics workflows.

Learning Specialist | 2U / edX

Cape Town, South Africa (Remote)

October 2023 - June 2025

- Tutored students in Git, GitHub, FinTech, Python, and machine learning topics.

Superagent Mentor | Blossom Academy

Greater Accra Region, Ghana (Remote)

November 2024 - Present

- Guides mentees toward paid freelancing opportunities and stronger positioning.

Data Analyst Consultant | 1Eight

New South Wales, Australia (Remote)

December 2022 - April 2023

- Used SQL, GCP, Streamlit, visualization, and statistical analysis to interpret business data.

SELECTED PROJECTS

MetaPOS App Data Management

Professional contribution

Supported retail point-of-sale data management work aimed at improving transaction flow, inventory visibility, sales reporting, and data accuracy.

FxPM 1.4 - Forex Portfolio Manager

Full-stack trading platform

Optimized forex portfolio management system with a Python backend, JavaScript frontend, and integrated analytics dashboard. Manages live signal trading workflows, position tracking, and risk controls.

Streamlit-Based Recommender System

Applied machine learning project

Collaborative and content-based filtering recommender system with a Streamlit web interface for interactive exploration and AWS deployment.

EDUCATION

BSc in Engineering Management

University of Debrecen | Debrecen, Hungary

September 2025 - Present

- Undergraduate study combining engineering fundamentals with management principles and systems thinking.

Data Science Certificate

Explore AI Academy | Cape Town, South Africa

January 2022 - December 2022

- Completed immersive data science training with an 85 percent result.

UC BOULDER COURSEWORK VIA COURSERA

Data Science Foundations: Statistical Inference Specialization University of Colorado Boulder via Coursera April 2023

Data Mining Methods University of Colorado Boulder via Coursera September 2024

Data Mining Pipeline University of Colorado Boulder via Coursera September 2024

SELECTED CREDENTIALS

Associate Cloud Engineer Certification

Google Cloud | Active through 1 March 2027

IBM Data Science Professional Certificate

IBM via Coursera | Professional certificate

Cloud Digital Leader Certification

Google Cloud | Active through 12 January 2027

Google Data Analytics Professional Certificate

Google via Coursera | Professional certificate
